

EsyWorld signs partnership with PineApp and brings Israeli security and archiving solutions to Brazil

[EsyWorld](#) has just signed a partnership with Israeli [PineApp](#), a leader in email security, email archiving and web filtering solutions. With this partnership, EsyWorld brings to Brazil the same technology adopted, for example, by the Parliament and the Ministry of Foreign Affairs of Israel. By this, the company expands its product portfolio with dedicated solutions to Web security, email and archiving that can be used on servers or in virtual environments.

Founded in 2002, PineApp has presence in over 50 countries worldwide, providing technology capable of meeting the needs of small, medium and large companies and Internet providers. Besides the Parliament and the Ministry of Foreign Affairs of Israel, many other companies and international institutions have adopted PineApp's solutions. EsyWorld invites its customers in Brazil to join a rich customer portfolio that includes representatives of the size of AOL (UK), Ministry of Education of Portugal, the Spanish Ministry of Infrastructure, Alfa Bank (Russia's second largest bank), Toyota (Japan, Russia, Israel and Australia), and McDonald's (Israel). In the Americas, PineApp's solutions have already marked their presence in the United States (University of Alaska, for example), Colombia (Universidad Javeriana and Ministry of Education, among others) and Peru (Alicorp, for example).

"We remain attentive to the best technologies available in the world so we can improve the access of Brazilian consumers to major innovations," says Luis Rogério Moraes, director of EsyWorld. He adds: "We are extremely proud of - and motivated - to reveal to our partners and customers the excellence of PineApp's solutions and to add another significant victory in our history."

Hezi Erez, CEO of PineApp, said: "We are glad to welcome EsyWorld as our new distributor in Brazil. We believe that EsyWorld will enable us to bring PineApp's power to the Brazilian market, and we hope that the company's extended knowledge in Software will enable us better penetration of our new Software and VMware based solutions."

About PineApp

PineApp™ is a leading security solution provider for Information Technology.

PineApp offers comprehensive email security, email archiving and web filtering solutions that are available as an appliance or software (on a server or VMware platform). PineApp's solutions are also available for service providers (ISPs) who wish to offer Cloud-Managed-Services and a DRP (Disaster Recovery Plan) solution to their customers.

Founded in 2002, PineApp is headquartered in Israel, with branch offices in the US, Canada, UK, Spain, Italy, France, Russia and Singapore and has distributors in more than 50 countries.
